Calling all early childhood educators interested in joining for school year 2020-2021!

Educators’ Neighborhood is a place for educators to learn from and with each other inspired by the life and work of Fred Rogers. We study episodes of Mister Rogers’ Neighborhood, read from the Fred Rogers Center archive, and generate new ideas together connected to our daily practice with young children.

Apply to be part of our Educators’ Neighborhood Learning Community (Cohort 2), a small group of early childhood educators (preK-grade 3), who will learn together during the 2020-21 school year to connect Mister Rogers’ Neighborhood episodes with learning goals in their education context.
